

# Enterprise Scalability

CRC Data Protection enables seamless and unlimited scalability, allowing enterprises or service providers to instantly add capacity for growth or to enhance the speed and flexibility of recovery with multiple versions of backup data.

- ✓ N+1 Grid configuration supports thousands of simultaneous client connections
- ✓ Silent, interactive and automatic client upgrade process, without interruption to backup schedules
- ✓ Comprehensive activity, event and audit logs
- ✓ Pay-as-you-grow pricing model eliminates the high costs of administration and licensing associated with conventional tape-based backup
- ✓ Automate an unlimited amount of backup sets with a few mouse clicks
- ✓ Addresses state, Federal and international regulatory compliance demands by backing up remote/branch office data to the data center
- ✓ Unlimited-seat licensing model ensures that companies pay only for the aggregate amount of compressed data from all machines
